

Dear Dr. Singhal,

Thank you so much for everything you've done for me. You believing me with the pain I was going through gave me hope in life. You have no idea how much you saved my life. I know you understand from your patients how stomach pain affects their lives. Going through the stomach pain for almost over a year affected my life so much to where I didn't want to live because it stopped me from doing anything I wanted to do. From having this surgery my pain has decreased tremendously and I barely go through bloating. Thank you for giving me my life back. Words can't describe how thankful I am.

From, Mariane Smy
